

Finishes

Casegoods and Seating

HPFi

Laminate

Thermally fused laminates provide uniform coloration and pattern as well as high-performance durability for lasting value.

Seating

Seating finishes highlight the unique characteristics of wood office and reception seating as well as coordinate with veneer and laminate casegoods.

Veneer

Select hardwood veneers provide the natural beauty of wood as well as the variation in grain and color typical of a natural, living material.

This natural variation is anticipated and expected, therefore veneer finishes cannot be guaranteed for exact color and grain match.

All veneer finishes feature catalyzed lacquer topcoat to ensure long life.

Desk pads and or glass with standoffs will further protect veneer worksurfaces.

Finish representations are professionally developed for accuracy and shown 75% actual size. Natural variations in the wood and the printing process may affect appearance.

Coordinating finishes shown with connecting dotted lines.
