SitOnIt • Seating®

Become unencumbered

Experience something so comfortable it hardly ever crosses your mind—from the moment you sit down until it's time to head home. Our best-selling seating solution works just about anywhere you need thanks to a wider back frame, a fully-integrated lumbar support, extra-deep seat and almost endless options to customize. Sit with Focus and see why it's been a customer favorite since day one.

One big (happy) family

This crowd-pleasing collection has a model for every role—collaboration space, café lounge, private office and more. And whether you need something tall, standard or on the side, the thoughtful design and smart support makes Focus perfect for any task.

Right behind you

Our signature dual-curve frame takes its cues from modern, industrial design while also reinforcing key points of contact, so your back is optimally supported throughout the day. Plus, a built-in lumbar system helps promote correct posture so that you spend more time working and less time (re)adjusting your seat.

Your cushy job (and extra-roomy seat)

Work is always a bit easier when sitting on a molded foam cushion that features an added layer of thickness for a supportive-yet-plush feel. And the sloped, waterfall edge helps promote proper circulation so you can sit for longer periods.

Sit and stay a while

Our Focus multi-purpose side seating collection is lightweight, comfortable and completely customizable. The popular mesh back option offers flexible suspension construction for dynamic lumbar support without the bulk. Translation? It's easy to move in and around — whether you're fidgeting during a lecture or swinging around for an impromptu group think.
